INCITING INCIDENT

Correspondance Wizard

The fox wizard Cadence is the bright and fun-loving heart of the delving crew. She is the youngest daughter of a modest farming family living at the edge of the hamlet of Erin. After scraping together money for most of her childhood, she started a mail-order wizard correspondence program at Broadgate University. This began two years of intense study in every spare moment of the young fox's days. Last week, Cadence cast her first Scorching Ray. Her intelligence and adventurous ambition drive her to round her closest friends up and form a dungeon delving crew.

Vulpine Deduction

Make a power roll + R and ask the Director a question about a closed-ended decision you face. The Director tells you something about one of the possible choices in the decision. The value or clarity depending on the roll. You cannot use this again until you gain one or more Victories.

- You place a small magical inscription on the surface of a mundane object you touch, or you can remove an inscription that was made by you or by another creature using Arcane Trick.

OTHER FEATURES & REFERENCE

ELEMENTALIST

Persistent Magic

Some of your heroic abilities have a persistent effect entry. For example, the Instantaneous Excavation ability has an effect noted as “Persistent 1.” Whenever you use a persistent ability, you decide whether you want to maintain it, and start doing so immediately after you first use the ability. If you maintain a persistent ability in combat, you reduce the amount of essence you earn at the start of your turn by an amount equal to the ability’s persistent value, which enables the ability’s persistent effect. All your active persistent abilities end at the end of the encounter.

You can’t maintain any abilities that would make you earn a negative amount of essence at the start of your turn. You can stop maintaining an ability at any time (no action required).

If you maintain the same ability on several targets and the effect includes a power roll, you make that roll once and apply the same effect to all targets. A creature can’t be affected by multiple instances of a persistent ability.

If you take damage equal to or greater than 5 times your Reason score in one turn, you stop maintaining any persistent abilities. For instance, if you have a Reason score of 2 and are maintaining Instantaneous Excavation, taking 10 or more damage in one turn causes you to stop maintaining the ability.

CLIMBING / SWIMMING

A creature who has “climb” in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has “swim” in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can’t climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don’t land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

HIGH GROUND

Whenever a creature uses an ability to target a creature or object while standing on the ground and occupying a space that is fully above the target’s space, they gain an edge on the power roll against that target. To be fully above a target, the bottom of a creature’s space must be higher than or bordering on the top of the target’s space.

A creature can gain this benefit while climbing only if they have “climb” in their speed entry or can automatically climb at full speed while moving.

NOTES

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren’t observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to themselves or a willing adjacent creature.

DYING AND DEATH

When your Stamina is 0 or lower, you are dying. While dying, you can’t take the Catch Breath maneuver in combat, and you are bleeding, and this condition can’t be removed in any way until you are no longer dying. While you are dying, your allies can help you spend Recoveries in combat, and you can spend Recoveries out of combat as usual.

While your Stamina is lower than 0, if it reaches the negative of your winded value, you die. When you die, you can’t be brought back to life without the use of a special powerful item such as a Scroll of Resurrection.

OPPORTUNITY ATTACK

Whenever a creature has an enemy adjacent to them and the enemy willingly moves to a space that isn’t adjacent to the creature without shifting, the creature can take advantage of that movement to quickly make a melee free strike against the enemy as a free triggered action. This is called an opportunity attack.

If a creature has a bane or double bane on the power roll against the enemy, they can’t make an opportunity attack.
