INCITING INCIDENT

City Girl

Unlike most of its residents, Eloise has not lived in Erin since birth. She is the oldest of seven children and the only one of them to remember living in the grand capital city of Louvain twelve years ago. Her heart longs to return to a place with back-alley cafes and boutiques displaying the latest fashion trends. As a teenager, the rabbit entertained herself by breaking into buildings and working petty confidence schemes. Eloise's icy demeanor rarely falters, but the ever-sunny Cadence was the first girl to impress the lapine. There is nowhere Cadence could go where Eloise would not follow. Despite her resentful scowling and cutting remarks, her friends know that she is a good and merciful person. She quickly takes the opportunity to leave the tiny world of Erin for something bigger.

ANCESTRY TRAITS AND PERKS

Skittish Instinct

You cannot be surprised.

Leaping

You automatically succeed at T3 when making a test to jump father or higher than your baseline.

Arcane Alacrity

Your agility is treated as 1 higher when resisting effects with a potency.

Slipped Lead

You gain an edge on tests made to escape bonds. Given 1 uninterrupted minute, you can escape any mundane bonds without making a test. Additionally, it's not immediately obvious when you've escaped bonds until you do something that makes it clear you have done so (cast them off, use an ability that harms one or more creatures, and so forth).

🧙 Arcane Trick

Main Action

You cast an entertaining spell that creates a minor but impressive magical effect.

MAIN ACTION

ARCANE TRICK

You cast an entertaining spell that creates a minor but impressive magical effect.

Magic **Main Action**
 Self Self

Effect:

Choose one of the following effects:

- You teleport a size 1S or smaller object adjacent to you into an unoccupied space adjacent to you.
- Until the start of your next turn, a part of your body shoots a shower of harmless noisy sparks that light up each square adjacent to you.
- You ignite or snuff out (your choice) every mundane light source of 1L or smaller adjacent to you.
- You transform up to 1 pound of edible food you touch to make it taste delicious or disgusting.
- Until the start of your next turn, you make your body exude a particular odor you've smelled before. This smell can be sensed by each creature within 5 squares of you, but can't impose any condition or other drawback on those creatures.
- You place a small magical inscription on the surface of a mundane object you touch, or you can remove an inscription that was made by you or by another creature using Arcane Trick.
- You touch a size 1T object to cover it with an illusion that makes it look like a different object. Any creature who handles the object becomes aware of the illusion. The illusion ends when you stop touching the object.

MANEUVER

I'M NO THREAT

Taking on the illusory countenance of another creature gives you an advantage on subterfuge.

Magic **Maneuver**
 Self Self

Effect:

You envelop yourself in an illusion that makes you appear nonthreatening and harmless to your enemies. You might take on the appearance of a harmless animal of your size, such as a sheep or capybara, or you might appear as a less heroic and unarmed version of yourself. While this illusion lasts, your strikes gain an edge, and when you take the Disengage move action, you gain a +1 bonus to the distance you can shift.

The illusion ends when you harm another creature, when you physically interact with a creature, when you use this ability again, or when you end the illusion (no action required). If you end this illusion by harming another creature, you gain 1 surge.

Spend 1:

Choose a creature whose size is no more than 1 greater than yours and who is within 10 squares. This ability's illusion makes you appear as that creature. This illusion covers your entire body, including clothing and armor, and alters your voice to sound like that of the creature. You gain an edge on tests made to convince the creature's allies that you are the creature.

NOTES

CRITICAL HIT

Whenever you make an ability roll as a main action and the roll is a natural 19 or natural 20 — a total of 19 or 20 before adding your characteristic score or other modifiers — you score a critical hit. A critical hit allows you to immediately take an additional main action after resolving the power roll, whether or not it's your turn and even if you are dazed (see Conditions below).

You can't score a critical hit with an ability roll made as a maneuver or any other action type, but you can score a critical hit with a main action you use off your turn. For example, an opportunity attack made as a triggered action or a signature ability used as a free triggered action with the assistance of the tactician's Strike Now ability can be critical hits.

CLIMBING / SWIMMING

A creature who has “climb” in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has “swim” in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:**Roll** **Effect****≤11** You fail to climb the creature, and they can make a free strike against you.**12-16** You fail to climb the creature.**17+** You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:**Roll** **Effect****≤11** You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.**12-16** You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.**17+** You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

DYING AND DEATH

When your Stamina is 0 or lower, you are dying. While dying, you can't take the Catch Breath maneuver in combat, and you are bleeding, and this condition can't be removed in any way until you are no longer dying. While you are dying, your allies can help you spend Recoveries in combat, and you can spend Recoveries out of combat as usual.

While your Stamina is lower than 0, if it reaches the negative of your winded value, you die. When you die, you can't be brought back to life without the use of a special powerful item such as a Scroll of Resurrection.

MOVEMENT

All squares adjacent to your character cost 1 movement to move into. No, there's no Pythagorean theorem on the grid. It's a game, don't overthink it.

Your hero can move freely through an ally's space. You can move through an enemy's space, but that space is difficult terrain. You can't stop moving in any other creature's space, including to make a strike or use a main action or maneuver while in that space and then continuing your move, unless that creature's size is two or more sizes greater or smaller than your own.

At the Director's discretion, you can be forced into the same space as another creature whose size is within 1 of yours, such as by falling down a narrow shaft with such a creature already at the bottom. When you are squeezed into the same space as another creature whose size is within 1 of yours, your ability rolls and tests take a bane.

Can't Exceed Speed: A single move or other effect can never allow a creature to move more squares than their speed, unless the effect states otherwise. For example, a creature with speed 5 might have that speed reduced to 2 by the slowed condition (see Conditions in Chapter 5: Classes). If an ally then targets them with an effect that allows them to move up to 3 squares, the creature can move only 2 squares because that's their current speed.

Can't Cut Corners: A creature can't move diagonally when doing so would involve passing through the corner of a wall or some other object that completely fills the corner between the creature's space and the space they are moving to. This rule applies only to moving past objects, not moving past other creatures.

SNEAKING

While you are hidden from another creature and not in combat, you can attempt to sneak—avoiding the senses of other creatures as you move around them in the open—to remain hidden. While sneaking, your speed is halved. To sneak, you make an Agility test using the Sneak skill with a difficulty set by the Director. If you succeed, you remain hidden during your movement. This test can use another characteristic at the Director's discretion, such as using Presence to blend in with a crowd on a packed city street.
