NOTES

HIGH GROUND

Whenever a creature uses an ability to target a creature or object while standing on the ground and occupying a space that is fully above the target's space, they gain an edge on the power roll against that target. To be fully above a target, the bottom of a creature's space must be higher than or bordering on the top of the target's space.

A creature can gain this benefit while climbing only if they have "climb" in their speed entry or can automatically climb at full speed while moving.

OPPORTUNITY ATTACK

Whenever a creature has an enemy adjacent to them and the enemy willingly moves to a space that isn't adjacent to the creature without shifting, the creature can take advantage of that movement to quickly make a melee free strike against the enemy as a free triggered action. This is called an opportunity attack.

If a creature has a bane or double bane on the power roll against the enemy, they can't make an opportunity attack.

CONCEALMENT

Darkness, fog, invisibility magic, and any other effect that fully obscures a creature or object but doesn't protect their physical form grants that creature or object concealment. Even if you have line of effect to such a target, a creature or object has concealment from you if you can't see or otherwise observe them. You can target a creature or object with concealment using a strike, provided they aren't hidden. However, strikes against such targets take a bane.
