ANCESTRY TRAITS AND PERKS

Specialist

You are a leading expert on a particular subject. Choose one skill you have from the lore skill group. You always have a double edge on tests made to recall lore using this skill. Additionally, your specialist knowledge grants you notoriety in fields related to the chosen skill. You treat your Renown as 1 higher when negotiating with an NPC who knows your reputation, or 2 higher if they have the same skill you chose for this perk.

Obscuring Dream

You are able to enter the dreams of other creatures you know by entering a trance. In this trance you are aware of your surroundings but cannot take actions or move unless you interrupt the trance. While in the dream of another creature you can communicate with them as long as they are asleep.

If their Reason is less than your average potency you may reshape their dreams to your own desires, even generating nightmares. If they fail to resist this effect, and as long as you did not make a particularly jarring appearance in their presence (being in combat with them, using strange magic) you can choose to modify their memory of meeting you within the last 7 days making you appear as a missed detail.

If you possess any portion of the target's physical body (a lock of hair, a fingernail clipping, etc), they resist using your strong potency instead.

You utter a prayer that outlines your foe in holy energy.

Magic, Ranged **Maneuver**
 ⚔️ Ranged 10 ⚙️ One enemy

Effect:

The target is judged by you until the end of the encounter, you use this ability again, you willingly end this effect (no action required), or another censor judges the target.

Whenever a creature judged by you uses a main action and is within your line of effect, you can use a free triggered action to deal holy damage equal to twice your Presence score to them.

When a creature judged by you is reduced to 0 Stamina, you can use a free triggered action to use this ability against a new target.

Additionally, you can spend 1 wrath to take one of the following free triggered actions:

- When an adjacent creature judged by you starts to shift, you make a melee free strike against them and their speed becomes 0 until the end of the current turn, preventing them from shifting.
- When a creature judged by you within 10 squares makes a power roll, you cause them to take a bane on the roll.
- When a creature judged by you within 10 squares uses an ability with a potency that targets only one creature, the potency is reduced by 1 for that creature.
- If you damage a creature judged by you with a melee ability, the creature is taunted by you until the end of their next turn.

You can choose only one free triggered action option at a time, even if multiple options are triggered by the same effect.

Judgment Order Benefit:

The first time on a turn that you use your Judgment ability to judge a creature, you can deal holy damage equal to twice your Presence score to the judged creature.

COVER

When you have line of effect to a creature or object but that target has at least half their form blocked by a solid object such as a tree, wall, or overturned table, the target has cover. You take a bane on damage-dealing abilities used against creatures or objects that have cover from you.

DURING THE MOVE

Certain ability effects allow you to move and affect other creatures or objects during that move, such as the shadow's One Hundred Throats ability. For such abilities, the move begins in the space you first leave when you start the move and ends in the last space you move into.

INVISIBLE CREATURES

Invisible creatures always have concealment from other creatures. If an invisible creature isn't hidden, they can still be targeted by abilities. The test made to find a hidden creature who is invisible takes a bane.

[illegible]

NOTES

MAIN ACTIONS

Any creature can take the following main actions, in addition to those listed in their stats:

- **Charge:** Move up to your speed in a straight line without shifting, and can then make a melee free strike or use an ability with the Charge keyword against a creature when you end your move.
- **Defend:** All ability power rolls made against you have a double bane until the start of your next turn. You gain no benefit from this action while another creature is taunted by you.
- **Free Strike:** You make a free strike.
- **Heal:** Choose an adjacent creature who can spend a Recovery or make a saving throw.
- **Trade:** You can convert your main action into a maneuver or move action, allowing you to take two maneuvers or move actions on your turn.

HIDING

To hide from a creature, you must have cover or concealment from that creature (see Chapter 10: Combat), who can't observe you attempting to hide. A creature is observing you if they're aware of your specific location before you attempt to hide. This means they can pinpoint you with their senses and point a finger (or paw or tentacle) at you as if to shout, "There they are!" If you duck behind a barrel to hide from a foe, your attempt to hide has a chance of succeeding only if your foe doesn't notice you doing so. If you're being chased by a hungry dragon, you can hide only if you first move to a location where the dragon can't observe you—for instance, by turning a sharp corner into a tunnel full of giant stalagmites before the dragon does. You then make your hide attempt.

When you use the Hide maneuver to hide during combat while you have cover or concealment from a creature who isn't observing you, you are automatically hidden from them unless the Director deems otherwise. If you hide outside of combat, the Director might ask you to make a test using the Hide skill to determine how well hidden you are.

While you are hidden from another creature, the creature can't target you with abilities that don't have the Area keyword. This benefit ends as soon as you are no longer hidden from that creature.

Additionally, while you are hidden from another creature, you gain an edge on ability rolls made against that creature. This benefit lasts until the end of the turn in which you are no longer hidden. This means you can be hidden from another creature at the start of your turn, move out of cover or concealment toward them and use an ability against them, and still gain an edge on ability rolls made against the creature as long as you use the ability before the end of that turn.

You are no longer hidden from a creature if you don't have cover or concealment from them. If you use an ability, interact with an enemy, move without sneaking, or otherwise make noise or reveal yourself while hidden, you are no longer hidden once the activity that reveals you resolves. For instance, if you are hidden and then make a strike, you resolve the strike first, then are no longer hidden.

Searching for Hidden Creatures You can search for creatures who are hidden from you as long as those creatures are within 10 squares and you have line of effect to them. To do so, you use a maneuver to make an Intuition test using the Search skill, and any hidden creatures within 10 squares of you each make an opposed Agility test using the Hide skill (see Opposed Power Rolls earlier in this chapter). At the Director's discretion, different characteristics and skills can be used in this opposed test. For example, your foe might make a Presence test using the Handle Animals skill to hide among a flock of sheep without disturbing them, or you could make a Reason test using the Eavesdrop skill to pick out the breathing of a creature hidden in the dark.

If the total of your test is higher than that of a hidden creature, they are no longer hidden from you. Otherwise, they remain hidden from you. As part of the maneuver used to search for hidden creatures, you can point out any creatures you notice to allies within 10 squares of you, making those creatures no longer hidden from those allies.

If a creature is hidden from your allies but not from you, you can use a maneuver without making a test to point that creature out to your allies.

CLIMBING / SWIMMING

A creature who has "climb" in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has "swim" in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

SNEAKING

While you are hidden from another creature and not in combat, you can attempt to sneak—avoiding the senses of other creatures as you move around them in the open—to remain hidden. While sneaking, your speed is halved. To sneak, you make an Agility test using the Sneak skill with a difficulty set by the Director. If you succeed, you remain hidden during your movement. This test can use another characteristic at the Director's discretion, such as using Presence to blend in with a crowd on a packed city street.
