INCITING INCIDENT

Delve Enthusiast

The wolf Trey grew up with a plough in his hands, working the fields before the sun appeared over the grassy hills surrounding Erin. To most of his peers, the tall, shy canine seems content to walk his father's same quiet path through life. Trey rarely speaks up in public, preferring the privacy of his family's barn. Behind its closed doors, he reveals the truth to his pals: Trey burns with the desire to join the Great Delve. For years, he has secretly trained his mind and body to the rigors of underground adventure.

When a creature marked by you is reduced to 0 Stamina, you can use a free triggered action to mark a new target within distance.

You can initially mark only one creature using this ability, though other tactician abilities allow you to mark additional creatures at the same time.

OTHER FEATURES & REFERENCE

MASTERMIND

Studied Commander

Your encyclopedic knowledge of the history of battle lets you apply that knowledge to current challenges. While you are present, each hero with you treats the Discover Lore project related to a war or battle as one category cheaper. This makes projects seeking common lore free, but such projects still require a respite activity to complete.

Additionally, if you have 24 hours or more before a combat encounter or negotiation, and you have one or more clues or rumors regarding the encounter or negotiation, you can make a Reason test as a respite activity.

The following test outcomes apply to a combat encounter:

Roll	Effect
⚡11	The Director tells you the number of creatures in the encounter.
12-16	The Director tells you the number and level of the creatures in the encounter.
17+	The Director tells you the tier 2 outcome information, and when the encounter begins, all enemies are surprised.

The following test outcomes apply to a negotiation:

Roll	Effect
⚡11	The Director gives you three motivations, one of which belongs to an NPC in the negotiation.
12-16	The Director gives you one motivation for an NPC in the negotiation.
17+	The Director tells you the tier 2 outcome information, and you and each of your allies gains an edge on tests made to influence NPCs during the negotiation.

You can make this test only once for any encounter or negotiation.

CLIMBING / SWIMMING

A creature who has “climb” in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has “swim” in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
⚡11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
⚡11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

NOTES

DYING AND DEATH

When your Stamina is 0 or lower, you are dying. While dying, you can't take the Catch Breath maneuver in combat, and you are bleeding, and this condition can't be removed in any way until you are no longer dying. While you are dying, your allies can help you spend Recoveries in combat, and you can spend Recoveries out of combat as usual.

While your Stamina is lower than 0, if it reaches the negative of your winded value, you die. When you die, you can't be brought back to life without the use of a special powerful item such as a Scroll of Resurrection.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

SNEAKING

While you are hidden from another creature and not in combat, you can attempt to sneak—avoiding the senses of other creatures as you move around them in the open—to remain hidden. While sneaking, your speed is halved. To sneak, you make an Agility test using the Sneak skill with a difficulty set by the Director. If you succeed, you remain hidden during your movement. This test can use another characteristic at the Director's discretion, such as using Presence to blend in with a crowd on a packed city street.
