EFFECTS

Entropy Ward

Your ward slows time for your enemies. Whenever a creature deals damage to you, their speed is reduced by an amount equal to your Reason score and they can't use triggered actions until the end of their next turn.

INCITING INCIDENT

Yttrus' Bane

Dent has spent their lifetime studying magic. Several lifetimes, in fact. They have gained and lost the spark of will several times. Each time they have studied and mastered time magic. Each time they've earned the ire of Yttrus and punished. Why Yttrus hasn't deleted them and turned them into a mummy is a mystery possibly even to the Knowing Mouse.

ANCESTRY TRAITS AND PERKS

Stackable Intellect

You share skills with each kobold within 1 square of you. You gain an additional bonus depending on the number of kobolds sharing the same skill in this way - At four kobolds, you gain an edge on rolls with that skill. At six kobolds, you gain double edge.

Clumsy Competence

You can gain Double Edge on an ability check either where no skill applies or a skill in which you are not trained applies. If you do, you succeed or fail as normal for the tier of the power roll - But it is always with consequence. You cannot use this ability again until you gain one or more Victories.

Thingspeaker

When you hold an object in your hand for 1 uninterrupted minute, you can sense whether it bears emotional resonance. Objects with emotional resonance could include treasured gifts, murder weapons, or personal keepsakes.

If the Director determines that the object bears emotional resonance, you learn the most dominant emotion associated with the object, then receive a vision that answers one of the following questions:

- What was the name of the person whose emotion is imprinted on this object?
- Why does this emotion linger on the object?

- How long has it been since the object was held by the person whose emotion lingers on it?

After asking one question, you can choose to delve deeper by asking one additional question from the list, but you are then overcome with emotions that do not belong to you.

You take a bane on Intuition and Presence tests until you finish a respite, and you can't use this perk again while you suffer this bane.

OTHER FEATURES & REFERENCE

TALENT

• **Heroic Resource: Clarity**
You can spend clarity you don't have, pushing that Heroic Resource into negative numbers to a maximum negative value equal to 1 + your Reason score. At the end of each of your turns, you take 1 damage for each negative point of clarity. Whenever you have clarity below 0, you are strained. Some psionic abilities have additional effects if you are already strained or become strained when you use them. Strained effects can still impact you even after you are no longer strained. Whenever you use an ability with a strain effect outside of combat, you can take 1d6 damage and incur the effect if you don't incur it for other reasons.

CLIMBING / SWIMMING

A creature who has “climb” in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has “swim” in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

MOVEMENT

All squares adjacent to your character cost 1 movement to move into. No, there's no Pythagorean theorem on the grid. It's a game, don't overthink it.

Your hero can move freely through an ally's space. You can move through an enemy's space, but that space is difficult terrain. You can't stop moving in any other creature's space, including to make a strike or use a main action or maneuver while in that space and then continuing your move, unless that creature's size is two or more sizes greater or smaller than your own.

At the Director's discretion, you can be forced into the same space as another creature whose size is within 1 of yours, such as by falling down a narrow shaft with such a creature already at the bottom. When you are squeezed into the same space as another creature whose size is within 1 of yours, your ability rolls and tests take a bane.

Can't Exceed Speed: A single move or other effect can never allow a creature to move more squares than their speed, unless the effect states otherwise. For example, a creature with speed 5 might have that speed reduced to 2 by the slowed condition (see Conditions in Chapter 5: Classes). If an ally then targets them with an effect that allows them to move up to 3 squares, the creature can move only 2 squares because that's their current speed.

Can't Cut Corners: A creature can't move diagonally when doing so would involve passing through the corner of a wall or some other object that completely fills the corner between the creature's space and the space they are moving to. This rule applies only to moving past objects, not moving past other creatures.

DYING AND DEATH

When your Stamina is 0 or lower, you are dying. While dying, you can't take the Catch Breath maneuver in combat, and you are bleeding, and this condition can't be removed in any way until you are no longer dying. While you are dying, your allies can help you spend Recoveries in combat, and you can spend Recoveries out of combat as usual.

While your Stamina is lower than 0, if it reaches the negative of your winded value, you die. When you die, you can't be brought back to life without the use of a special powerful item such as a Scroll of Resurrection.
